(Nov. 4, 2016 – New York, NY) Los Angeles-based singer/songwriter **Moxie Raia**, one of *Rolling Stone's* "10 New Artists You Need To Know," is welcomed to the Def Jam Recordings family with today's arrival of ***931 RELOADED***, featuring **Pusha T, Vic Mensa, Wyclef Jean, Post Malone**, and others. ***931 RELOADED*** is the expanded re-release of ***931***, Moxie's debut mixtape, originally issued in March as she began a high-profile 4-month gig opening for fellow Def Jam artist Justin Bieber on the North American leg of his *Purpose World Tour*.

Premiering today on [Nylon.com](http://nylon.com) is the brand new video for previously released track "On My Mind" featuring fellow label mate **Pusha T**. "On My Mind" hit the Spotify Viral 50 chart following its original release in March.

931 RELOADED will feature two brand new tracks including "**[WWYD \(What Would You Do\)](#)**" featuring Chicago rapper **Vic Mensa**, a tribute to the classic late-'90s #1 smash by beloved New Jersey hip-hop trio **City High**; and the **[KLYMVX Remix of "Follow Me"](#)** with **Wyclef Jean**. ***931 RELOADED*** is named after Moxie's downtown L.A. loft that has become her creative haven.

Born in New Jersey, raised in New York City, and now living in L.A., Moxie has been playing piano since the second grade. Even as a young girl, she was influenced by her father's soul music

collection, especially his love for Stevie Wonder. “His music brings people together,” she says, “and that’s always really inspired me, and that’s my goal with my music.”

A giant step toward realizing her goal was hitting the stage on tour with Justin Bieber. It was, she says, “a whole crash course in being an artist, and Madison Square Garden was the final exam.” It taught her things about her fans, about herself as a performer, and prepared her for what’s next: the opportunity for the world to discover who she really is.

931 RELOADED tracklist:

1. Rudimental featuring Jimi Tents
2. Could You Be Love featuring Buddy
3. On My Mind featuring Pusha T
4. Hey Love
5. Healer featuring Goldlink
